# Dedication

Presented to Mr. Shuman at Class Day, June 4, 2010, by **Danielle Stein**, on behalf of the 2010 Senior Class

**"Work Hard, Be Nice."** Four little words that form one powerful philosophy.

These are the words that greet students as they walk through the door of room A115 in the history wing.

The 2010 Yearbook Dedication recipient not only reminds us to do these things,

but he inspires us by showing us how they're done.

For all he's done for us and for his belief in what we can be, the members of the Class of 2010 join together to shout....Shuman!

## **Work Hard, Be Nice.**

Hailing from South Boston, Mr. Shuman worked to become the valedictorian

of his high school class at Catholic Memorial.

From there he earned a degree in Government and Economics at Bowdoin while serving as the captain of his college varsity hockey and golf teams. After working for a few years as a market analyst, he followed his heart into teaching, earning his master's degree at Tufts and finally, thankfully, in 2005, found his way to Westwood High. He has been encouraging the Westwood High School community to work hard and be nice ever since.

## **Work Hard, Be Nice.**

In the classroom, it's obvious how hard Mr. Shuman works to make learning both meaningful and fun. He uses the lessons of history and the study of psychology to make us think about big ideas: who we are, what we value, our responsibilities to ourselves and others. Whether it's rallying for their candidates in the mock presidential election or arguing constitutional points in front of the Shu-preme Court, students in Mr. Shuman's classroom want to do their best. As Natalie Shapeton said,

"I wish I had Mr. Shuman for more than one year. He wants everyone to succeed and with him success always seems reachable."

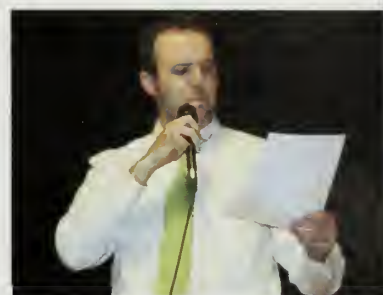

## **Work Hard, Be Nice.**

Outside of the classroom, Mr. Shuman's contributions make the Westwood High School community better. From refereeing the girls' football game, to chaperoning the beach trip, to advising We the People, or bringing Westwood's #1 Superfan, Teddy Shuman, to a Friday night football game, Mr. Shuman's support has made our senior year more memorable.

## **Work Hard, Be Nice.**

Whether he's baking us his special blueberry cake or giving us the "Hey, guys, what's up" in the halls, Mr. Shuman exemplifies what it means to be nice. Kayla Franceschi said of him, "He's down-to-earth and an all around good guy. Everyone likes Mr. Shuman." Now I can tell you, as president of the Student Council, the fact that everyone loves Mr. Shuman saved the talent show this year. We booked him as the MC, knowing that everyone would show up for Shuman.

### **Work Hard, Be Nice.**

Mr. Shuman leads by example, making him someone the senior class admires. As Christian Adams said, "No matter what he's doing, he commits himself to it with honesty and integrity." Mr. Shuman helps us to be better people. As Ries McQuillan said "He has made me into a more confident person." Mr. Shuman gives us support and guidance when we need it. As one senior noted, "We had some really tough moments this year and Mr. Shuman was always there - for me and for the class as a whole." A few seniors noted appreciatively that it took Mr. Shuman's hard work and a little kick in the pants (nicely) to get them to graduation this year. Truth be told, we might say he's our perfect role model, except for that little flaw of coaching the Canton High School Hockey Team.

### **Work Hard, Be Nice.**

In his cover letter applying to teach at Westwood, Mr. Shuman wrote, "I look forward to joining an exceptional school community dedicated to creating a positive and supportive learning environment that promotes mutual respect and the expectation that every student will strive to meet his or her potential in both the classroom and the larger community." Mr. Shuman, with the example you set for all of us, you have helped to make Westwood High School that place. We understand from past senior classes that it is your practice to write a personalized thank you and good luck note to every one of your graduating seniors. Well, Mr. Shuman, the 2010 Yearbook Dedication is our thank you note to you.

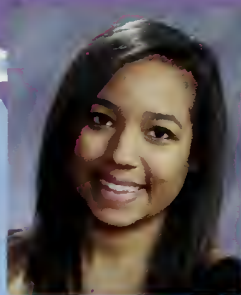

"Mr. Shuman's class is fun and interactive- we learn through active experience and real-life models. He teaches in a way that makes it easy to learn."

Malachy Duffy

"He has a great sense of humor and always keeps his classes laughing. He cares so much for his students and really wants to see them succeed."

Janice Michaud

"He made my high school experience very comfortable and can always put me in a good mood. He has an answer to everything no matter what your situation is."

Mariah Hurley

"He is probably the best teacher I have had my entire high school career; his classes always keep me thinking."

Madison Rau

"Mr. Shuman made the entire senior year experience a blast. He kept us motivated to work hard in all of our classes, not just his!"

## Student Council

Student council is the best place to have your voice heard. We put together all of the school events and put students' ideas into action. Our most successful events this year included the girls' football game, the "Viva Las Vegas" Dance, bringing back the pep rally, and "The Student Teacher Diversity Talent Show" in the Spring. We work hard to bring the Westwood community closer together and to have succesful and fun events all year long.

I would say that it was a very productive year; we had a few pieces of legislation and advisory statements related to SIGS status and connecting with constituents! It was a great year for legislative council.

# CLUBS

# No Parenthesis

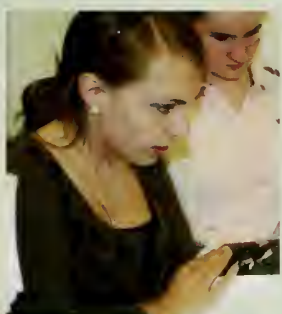

It's great to be able to see what talent we have each year because it's all student work. We are each assigned teachers to obtain student work, edit it, collect photography and match that to the literary pieces. I'm really proud of all of our hard work and I like to see the teachers' reactions. We

are very sad that Ms. Brackman will not be working on the book next year. We have a helpful staff of Juniors and Seniors, and we have all become friends.

Movie club is a group of people who appreciate film, are looking for a fun time, have intellectual discussions and like to eat snacks! This is the first year we have had a movie club, and it gives students a chance to watch the movies they never normally get to see. After each film, we spend a good amount of time talking about our favorite parts and any questions or commentary we have on the movie. In the winter, we watched all of the Oscar movies that were nominated for best picture. This club is so much fun, and gives everyone something exciting to do on Monday nights now! I hope this continues next year because it is the "best club ever"

- Nina Shapiro

# Photo Club

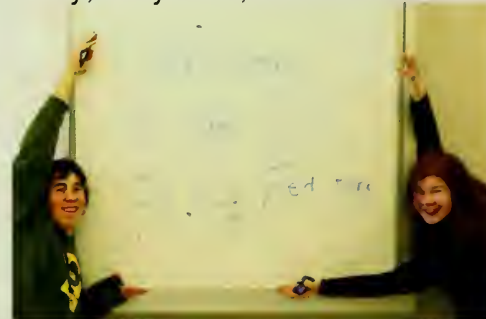

I Joined Photo Club because I wanted to show my work. Our fieldtrips are the best, it was fun going into Boston and taking pictures at Quincy Market. We typically get together and show our photos and comment on them, organize the next outing, and practice taking photos! I have made many friends and we have become a tight-knit group of photographers. I also love Mr. Mao and he makes this club awesome. Anyone looking to improve their eye for photography should stop by!

# Anime Club

Everyone here is really inviting and nice, and we become a family by the end of the year. Every week we watch a new Anime and as leaders we try and pick a movie that will appeal to everyone. Our big event is Anime Boston, when we dress up and go to a convention to enjoy the culture of Japan. We get to hang out with great people, and see how Anime is made. At WHS, we are trying to improve the image of Anime and the culture of Japan.

# Robotics

I started doing Robotics because I was convinced to at the activities fair freshman year, and it was love at first sight. This year we had a small devoted group of people and we had very high expectations. At competition we ended up in 4th place overall which is the best we have ever done; that blew our expectations out of the water. Additionally, Mr. Holthouse is the best teacher and mentor in the entire school, he devotes so much time and money to the project and with very little recognition. Driving the robot at competition is a blast because it is like driving a remote control car on steroids!

# NAHS

This year we held our annual Project Empty Bowls night and raised almost \$1000 for the Greater Boston Food Bank. We made ceramic bowls and also painted glass bowls, which put our art skills and put our creativity to the test. It was a very successful year for NAHS and we also had a pumpkin carving day for Halloween in the fall!

# Math Team

This year Math Team, was able to go to meets at Boston Latin and Xavarian in a limo. Each meet has 5 different rounds and at the end the team with the most points wins. Ravi is our MVP and captain this year.

The best part was all the limo rides we took, also our team loves oreos!

# Science Team

Joining this club as a freshman opened up many opportunities to explore science outside the standard science curriculum. Having the choice to compete in events ranging from robotics to taking chemistry tests allowed for a diverse group of

people to join. This year, we received a gold medal in the State Olympiad and competed vigorously during monthly meets. I loved the last minute preparations, using "resources" to rank high, and racing to get the bad pretzels and soda at the meets. With many new members joining this year, this club shows promise for next year's competition.

# Debate Team

For Debate Team a typical meeting is preparing for our next meet. My favorite part of this club is getting to see Ms. Sharry after school. This year, we went to a debate in Needham and Shayan won his debate! I joined because I really wanted to have the experience of debating and public speaking skills, and because Mr. Dolleman is really nice!

# Academic Decathlon

I joined Academic Decathlon because my brothers did it and said it was fun and you learn a lot. With Mr. Dore as club director, this is definitely true. The team would prepare by talking about art, math, science, music, etc.....and then we'd compete with about 100 other students from other schools for 3 hours of nerve-wracking testing. Over the years, I've gotten a lot better. This year, Ravi, Sarina, and Jackie all won medals, and the team qualified for the Regionals! -Joe Leibson

I've been part of Mock Trials since freshman year. Even though it's a small team, we work together and did tremendously well. This year, Mock Trials did better than we've ever done, winning 3 trials and moving on to the next round. I always enjoyed staying after school on Fridays (once until 9:30 p.m.) to prepare, especially when we got Chinese food or McDonald's. -J.T. Kelly

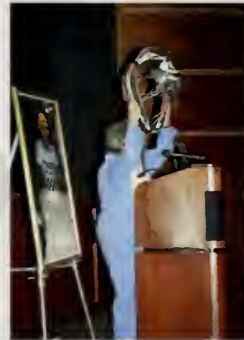

# SADD

SADD works to promote students making the right decisions, and show how their decisions will effect their future. Mr. Morelli is a really great role model and he always encourages us help promote making smart choices to the WHS community. This year we had Virginia Lester share her story during the week of prom, which taught kids the dangers of drunk driving and the real-life effects.

# GSA

I joined because it's a place where you can be who you are without judgement, also to fight for the rights of myself and other people. Ally Week is when we have announcements, a booth, buttons and more to have people pledge to stop using derogatory names. We also had the "Day of Silence" when we remain silent to symbolizes the voices unheard because of GBLTQ. This has gained a lot of momentum, and I am very proud of people standing up for what they believe in.

# Key Club

I heard about key club in 8th grade and because I love community service, I decided to join. Our group met on Tuesday afternoons and brainstormed ideas and planned for upcoming events. This year, we did 'Stockings for Joy' at Christmas, a carnation sale for Valentine's Day - with proceeds going to Haiti, and a Food Drive for the Westwood Pantry at Thanksgiving. Mrs. Matteson is really nice and gets us all the supplies we need. Our goal for the future is to increase our membership so that we can get even more done!

# Ecology Club

NAMES: (L-R) Sabrina Farley, Sarah Muellers, Matthew Muellers, Kathryn Gilliland, Jacqui Morra

I joined EcoClub because I have an overactive conscience - when I see something is wrong, I need to get involved. Mr. Schwanbeck was the club's advisor this year, which was great because we got to see his 'after school version'. His calm vibe really dictated the feel of the club this year. We did some great things this year, including a clean-up at Hale and two in the woods behind the school. Our 'dumpster dive' was great. We used the cardboard we found in the recycling dumpster to make posters! We learned some too. Mr. Holthouse packed the room with his talk on nuclear energy, and Mr. Schwanbeck's friend, a biologist from Hawaii, Skyped us about her government research job working with turtles.

-Matt Muellers

# French Club

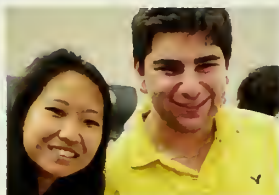

French Club this year was awesome- we would go out for ice cream, or have movie nights! We sold friendship bracelets to raise money to help in Haiti, and this Spring we participated in the "Walk for Haiti" in Boston. It was fun to spend the day together as a club!

In the Spring, we set up a booth outside of the cafeteria to raise donations for the Jimmy Fund, and to go to the Scooper Bowl in Boston. We surpassed our goal and raised over seven hundred dollars. "We The People" forces us to keep up to date with current events, and we love Shuman's constant motivation and support for the staff. We look forward to our intellectually stimulating meetings on long Wednesdays in room A115. This club brings together people that have a common interest in what shapes our world from day to day. "We The Onion" is our favorite issue of the year because it allows us to deliver the news with some cutting edge humor. Recruitment night at the activities fair is also a lot of fun, because we are bringing in the future of the newspaper.

The peer mediation leaders are a group of Westwood High School students who help resolve conflicts among students in the school and promote a general positive environment. Led by our fearless leaders, Mrs. Higgins and Ms. Cataldo, the peer mediators had a lot of success. We attended the Anti-Defamation League Conference in Boston, where students taught and attended seminars. The theme of the conference was "the power of one" and everyone took something meaningful from this day. We had a lot of fun this year and the seniors will miss our lunchtime meetings, especially gender swap and people to people!

# Ambassadors

I joined Westwood Ambassadors at the end of my freshman year and this year I was Vice President. I joined because I wanted to help out incoming freshman by giving them tours and answering their questions. While we toured with future freshmen, we got them excited about coming to the high school. I loved working with Mrs. Bowe, the club advisor, because she is so organized. She always made sure we were totally ready to do our job.

# Yearbook

Interview with Ailyn Pestana and Danielle Stein

**What was something memorable about the year?**

The yearbook staff broke records this season when it worked on the book till 10 pm

**What is a typical practice like?**

A typical "practice" at yearbook involves lots of downloading pictures as a warm-up. Then photoshopping and editing, with uploading to the website. Then we work on layouts which is intense for a few hours. And our cool-down is eating golden oreos, and spinning in the chairs for a few minutes.

**Any team Bonding Activities?**

Team bonding includes making mix CD's, eating breakfast, lunch, and dinner together in June, and going to Danielle's house or coming in on Saturdays to work on the book.

**What was your biggest goal this season?**

The biggest goal this year (and every year) is the final deadline in June. To get there it involves mental preparation, and thinking about/ working on the yearbook 24/7. This is a full-time job in the spring, and the yearbook becomes your best friend pretty much.

**To Seniors, what will you miss the most?**

The way that each year "Green Years" starts off as a pretty random collection of people but by the end of June we truly are a family. Also, A157, spinny chairs, Otis, the old computers, the snack cabinet, and the huge music collection, but mostly the people.

**Any final thoughts about the yearbook?**

It's like a home away from home. We become a family.

# ROSENCRANTZ AND GUILDENSTERN ARE DEAD

Westwood High School Presents

By Tom Stoppard

"I like this play in general because the group is a lot smaller which means you get to become closer to each other." -Aaron Kesler

The play depicts two minor characters from William Shakespeare's play Hamlet, Rosencrantz and Guildenstern, who find themselves on the road to Elsinore Castle at the behest of the King of Denmark. They encounter a band of players before arriving to find that they are needed to try to discern what troubles the prince Hamlet. Meanwhile, they ponder the meaning of their existence.

Argentina's controversial First Lady is the subject of this dynamic musical masterpiece. As an illegitimate fifteen year old, Eva (Madeline Bugeau-Heartt) escaped her dirt-poor existence for the bright lights of Buenos Aires. Driven by ambition and blessed with charisma, she was a starlet at twenty-two, the president's (Justin Magnum) mistress at twenty-four, First Lady at twenty-seven, and dead at thirty-three.

# We'll Miss You Retirees!

You've been a wonderful group of seniors who have demonstrated in so many ways that you care about our school community and *care for* each other. I'm confident that all of you will *do well* in the future at school, in your career, and in your personal life. I encourage you also to *do good*- to continue to make this world a better place. I've enjoyed teaching you- and thank you for (usually) laughing at my jokes!

Dr. Earls

Chair of the English department

Congratulations to the class of 2010! I can truly say that you have been my favorite class ever. I have thoroughly enjoyed the classes we have shared and our trips to Québec, France and Italy were wonderful!

I would like to give you two pieces of advice. The first is to always have a dream. It's important to have something you are striving to achieve, whether it is an advanced degree, a vacation in an exotic place, a better job, or spending more time with your family. The second is to take advantage of every opportunity that comes your way because you never know where it will lead you. I took a summer job after college that led to a very satisfying 35-year career in public education and travel to many interesting places. Carpe diem!

I wish you all the best of luck in the future.

Ms. Roberts

Chair of the Foreign Language department

As they say, Westwood really is "an excellent place to learn" -thanks for all you have taught me for so many years. Below you'll find advice based on my Westwood education. Best wishes always,  
Stephanie Kelsch

## Advice for Westwood High Students

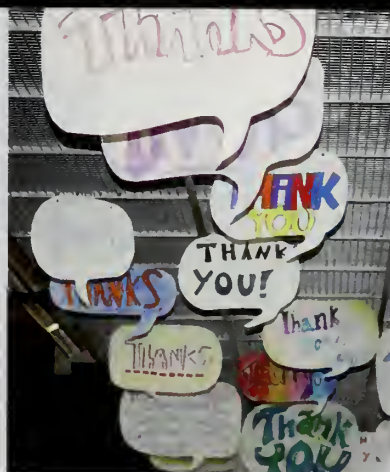

1. Breathe diaphragmatically as often as possible.
2. Live with the joy of Huck Finn and the generosity of Queequeg.
3. Love with the steadfastness of Hester Prynne and the courage of Edna Pontellier.
4. Re-read *Our Town* at least every five years.
5. Call me if you ever feel like sledding in Starkfield; I'll try to talk you out of it.
6. End every speech with "thank you."

Thank YOU!!

Mrs. Kelsch

English Teacher

It is my greatest wish for everyone is to love his/her job as much as I have loved being a special education teacher at WHS for the past 33 years. I can honestly say that I have looked forward to going to school each and every day of my 5940 day tenure. Part of my enthusiasm has come from my involvement in extracurricular activities such as being an advisor to the Senior Class, Student Council and HuRARR. A thought I would like to leave with the WHS Community is to GET INVOLVED. A school is only as good as the participation of its members, and one's memories of a place are enhanced by the degree of one's participation and involvement.

**To the Class of 2010:**

I now know more about those little tootsie rolls than I ever thought I would. I know who likes them, those that enjoyed them first thing in the morning and those that need them as a mid-morning snack, and those that need one at the end of the day.

I have seen firsthand the joy that those little rolls can bring and also the disappointment when they are all gone, and how word spreads when they return!

Since most of you have enjoyed these tootsie rolls, I thought I would share with you how that phenomenon first started.

My first Fall at WHS I had a small bag of them at home and decided to bring them to school. Being the "new kid" in Guidance, it turned out to be a great way for me to meet students and staff that came through the office. After that first bag was gone, that was it- so I thought. Well, word soon spread that there were "no more tootsie rolls in Guidance" and soon I had a lot, I mean a lot, of kids and faculty asking for more. So one night over dinner, I told my husband about this "tootsie roll craze" and he suggested buying a large bag at BJ's. I did - well truth be told he really bought them and continued to do so for many years.

That first bag I just wanted to get rid of because I am not a fan of tootsie rolls, well now, the joke is on me because it took on a life of its own. In the future whenever you have a tootsie roll, I hope you will remember me.

*Good Luck Class of 2010!*

*Thank you,*

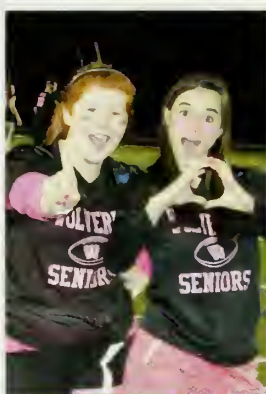

*Mrs. Hayes*

**Any team inside jokes or nick names?**

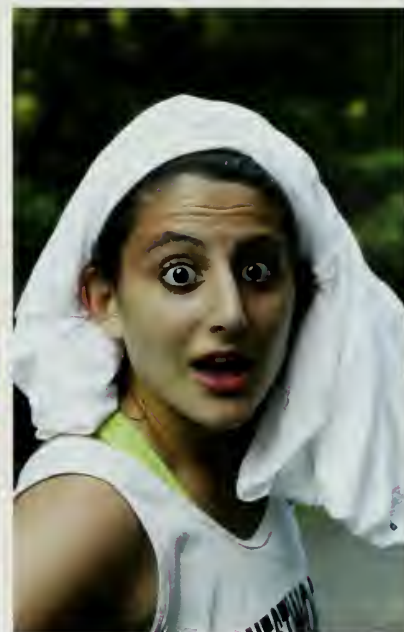

GNOMESSSSSSS!, WOODMAN WOODMAN WOODMAN, "i like boys", "pass the zaaaa", the icecream BRAWL at Katie's & a LOT of crazy nick names

**Describe a typical practice?**

Practice was brutal, we started off with stretching and drills, followed by running atleast 3-6 miles a day; but in the end it was totally worth it seeing girls shaving seconds and even minutes off their times!

**To the seniors, what will you miss the most?**

The lifers, the hugs, the vent sessions, all the jokes, underclassmen encouragement, their team spirit, and the road trips, but at least we'll have unforgettable memories!

# Boys Cross Country

Interview with Sean Brodrick

**Tell us about a typical practice:** Neil would either give us a workout, including warm-ups and repeats, or tell us to run roads typically between 3-5 miles

**Are there any particular drills/activities which the team loves or dreads?** We usually preferred running roads over workouts. Repeat miles were most dreaded.

**Describe a team bonding activity:** Pasta dinners every Tuesday night at different people's houses brought us together as a team because everyone got to know each other and have a good time.

**What are your pre-game routines?** We usually ran a mile or two to warm up, and then did dynamic stretching before the race.

**Describe the most memorable meet of the season?** The most memorable meet was the TVL race at Medfield, when everyone ran in the cold pouring rain through puddles and mud.

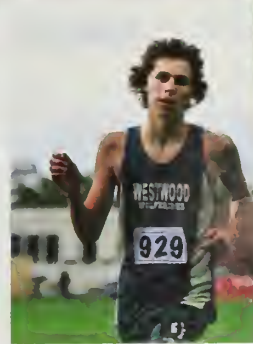

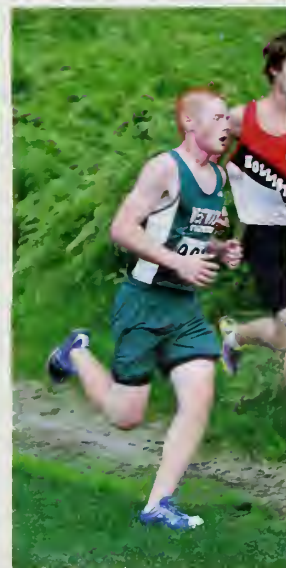

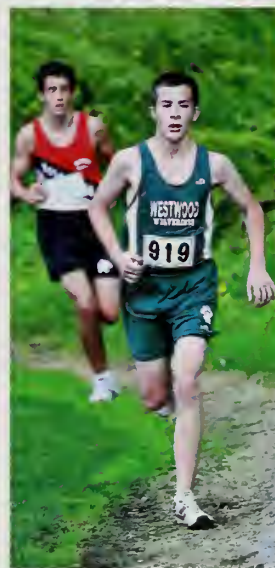

**Why was it memorable?** Despite the conditions, we all ran as hard as we could because it was our last race and we weren't about to give up.

**Did anyone sustain a significant injury?** Johnny stepped on a piece of metal and hurt his foot at the beginning of the season

**To seniors, what will you miss most?** Seeing friends every day and facing the grueling practices together as a team.

**What advice would you give to underclassmen?** Even if you think it is impossible to become a good runner, never give up because with practice and guidance, anything is possible.

**What does a meet day feel like?** The race is constantly in the back of your mind, and you anticipate how the race will go until you finally get to the starting line and the gun goes off.

Interview with Kerri Harrington, Alanna Leahy

**What are your pre-game routines?**

Pre-game routines are mostly get dressed and get going. It's not just about being physically prepared; you have to be mentally prepared in order to win. We warm up and then we play.

**Take me through a game day:**

Game days are much different in school, it's harder to focus. For us, every game matters. There is no automatic win, it's who wants it more. The whole day I'm nervous and excited and I just want to play the game.

**To seniors, what will you miss most?**

What we will miss most about field hockey is Wilson's brownies, 20 minute runs, Alanna's jokes, pasta dinners that last for hours, bus rides, sing-a-longs...and when Mia gets carded.

**Are there particular drills/activities which the team loves or dreads?** We loved playing soccer, volleyball, and we hated any form of sprints.

**Describe the most memorable game/meet of the season. Why was it memorable?** I think that the most memorable game was senior night. That night was really emotional, and I think as a team we were all on the same page and excited for the game.

**Did anyone sustain a significant injury?** During the season, I think that every single player on the team had an injury of some sort.

**To seniors, what will you miss the most?** I think we will miss all of the girls. This year was the first year that everyone wanted to be together as much as we were.

**What was the most memorable game and why?**

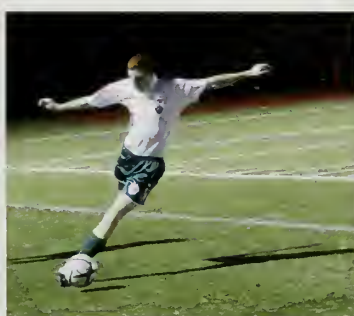

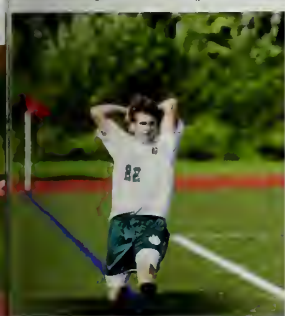

The most memorable game was definitely the season closer against Bellingham. Our seniors stepped it up and brought everything they could to field that night. It felt good to beat the opponent on their own turf. I couldn't have asked for a better way to end the season.

**Any team inside jokes or nick names?**

Yeah, I know that I'm gonna miss the 'deets circle', and I hope Joey's child is doing well. And you wouldn't wanna know our nicknames.

Five minutes before the opening whistle is indescribable; like having butterflies and adrenaline like no other. We stretch together then we run through our routine and cheers. After, we break into groups and work on stunting and dancing.

**Are there particular drills/activities which the team loves or dreads?** Running snakes are horrible but we love pasta dinners and bus rides!

**Describe a team bonding activity:** Cheer camp, bus rides, and pasta dinners.

**Take me through the day...is there something different during school?** Yes we dress up for spirit days. The most memorable? Disney characters!

**What are your pre-game routines?** We get together before every game to get ready as a team. Usually there is a lot of hair braiding and energy drinks.

**Describe the most memorable game of the season:** The most memorable games were the Senior Night game and the Thanksgiving day game. The energy was so high from the crowd and we tried our hardest to keep it up throughout the whole game. Although the football team did not win either game, we felt successful in keeping the spirit high and the crowd cheering!

**To seniors, what will you miss most?**

Cheer camp and the feeling you get when the music is about to start and you can't breathe and you feel like you are going to throw up. And the feeling at the end when everything is over and you could not have put in any more to the great performance you just gave.

**Tell us about a typical practice.**

**Are there particular drills/activities which the team loves or dreads?**

No one dreads anything at practice. It's always a great time unless it's too cold out - but even then we find a way to rally.

**Describe a team bonding activity.**

No race is complete without a Wendy's trip. We go every time.

**Take me through the day...is there something different during school?:**

No, we do our getting ready on the bus, getting geared up, and just before we head to the mountain.

**What are some pre-game routines?**

Listening and pumping up to music. Also chatting it up on the bus.

**Describe the most memorable game/meet of the season.**

The trip to Wachusett Mountain for States. It was really amazing.

**Why was it memorable?**

We got to skip a day of school to go ski and we took a team bus out together. It's the best. It was also great to see how much we have improved and achieved.

We stretch and do warm-ups in lines, and then we'll split off to do a workout designed for our different events.

**Are there particular drills/activities which the team loves or dreads?**

Any sprint workout outside when it was cold was always dreaded.

**Describe a team bonding activity:**

Occasionally for a warmup we played this type of dodgeball game that was hilarious.

**Take me through the day...is there something different during school?**

The bonds that form during track are unique because the team is so large and is comprised of all grades. We say hi to each other in the hallways or joke about things that happened at practice.

**What are your pre-game routines?**

We would run warm-up laps around the track, do stretches, and then go do event-specific things such as getting steps for high jump, adjusting blocks, or trail leg drills over hurdles.

**Describe the most memorable meet of the season.**

Medfield is always our biggest meet of the season because they are always a challenge, and we moved people around to maximize potential points.

**Why was it memorable?**

Medfield is always a tough meet and we were psyched to beat them after we lost to them in indoor last year.

**To seniors what will you miss most?**

The underclassmen, definitely.

**What advice would you give underclassmen?**

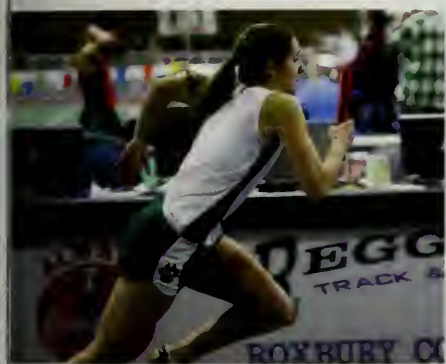

Try a new event, you never know what you might end up being good at!

**What does a game day feel like?**

At first we're pretty tired because our meets were mostly on Saturdays, but once we get there and warm up everyone gets pumped up for their event and to cheer everyone else on.

Interview with Peter Campion

**Tell us about a typical practice.**

Well, practice begins at 2:45 every day and goes until 5:00 p.m.

**Are there particular drills/activities which the team loves...dreads?** I think the team is in agreement that we'd prefer land exercises over actual swimming. The worst swim we do is a pyramid/reverse pyramid (50, 100, 150, 200 and then 200, 150, 100, 50).

**Describe a team bonding activity.**

Posta dinners were always a fun team bonding activity. We ate, laughed, played video games and were really able to become a good team.

**Take me through the day...Is there something different during school?**

We did dress up days for meets (shirt, tie, dress pants - and some went the further mile with a suit jacket). In school not much is different, but on the bus to the meet and arriving at the meet....intimidating....hahaha...just cause we're looking at the other team trying to find at least a few kids we know we can beat.

**Describe the most memorable game/meet of the season?**

I think the most memorable meets are the ones where we only lost by about 10-20 points.

**Did anyone sustain a significant injury?**

No real injuries this year, thankfully, cause we need every one of our 11 guys to be well to compete.

**As seniors, what will you miss most?**

I'm gonna miss the whole experience. Being on the team for four years was great and I always looked forward to going to practice and being able to do something I was really passionate about.

**What advice would you offer to underclassmen?**

To my underclassmen - keep trying your hardest. It's not about whether you win or lose, it's that fact that you know you tried your hardest and gave it your all.

**Any new coaches this year?**

This year we had a new coach, Ms. Nason, social studies teacher here at WHS. With a new coach came new coaching styles but the team was able to adjust and we all got along really well!!

Interview with Rian Rossetti

**What are your pre-game routines?** We would always stretch and warm up as a team, sometimes outside in the freezing cold. We would do a lot of relay races and strange warm-ups such as this thing called "the prechaun." We listen to an inspirational speech in the locker room last thing before the game starts

**Describe the most memorable game/meet of the season?** The most memorable game was probably our last game at Martha's Vineyard. We lost, but we got to take the ferry to the Vineyard and then we spent the night down the Cape, which was really fun.

**Did anyone sustain a significant injury?** We had four different people with concussions!

**To seniors, what will you miss most?** Practicing at 5 am in twenty degree weather! Just kidding, although I think that having such a rough schedule brings the team closer together. Maybe just bonding on super long bus rides since only three TVL schools have hockey teams.

**What advice would you offer to underclassmen?** "In any fight it is the guy who is willing to die who is going to win that inch." -Al Pacino

**Any new coaches this year?** We had four new coaches this year. Our new head coach, Rick Chrusciel, had us working hard on off-ice conditioning, which we had never done as a team before, and brought a

strategy to our game that really suited us as a team. We got really good at hitting the puck "off the boards!" or at least knowing that was what we were supposed to do. Our new assistant coaches, Greg, Erica, and Justin, did a great job motivating us and also teaming up on us in practice.

**Team nick names/ inside jokes?** One time we made a humongous breakfast at Molly's house and we pretty much ruined her kitchen. Also, Fresh: Charging Rhinos

**Describe a team bonding activity.** Eating with the guys at Murph's Place and New Garden, then kickin' it back at Brett's house.

**Is there something different during school?** You sleep during classes, stock up on caffeine drinks. We sit together at lunch and during frees and talk about the season.

**Describe the most memorable game of the season.** The game versus Concord Carlisle, ranked first in Division 3. In the third period we tied the game. It was one of the most intense games I have ever participated in and it was an accomplishment to have competed with such a strong team.

**To seniors, what will you miss most?** Hanging out with the boys, keeping everyone in line, ha, and playing the sport.

**What advice would you offer to underclassmen?** Keep your head up in every situation. Remaining positive is key. Never point the finger to blame anyone else, just work harder to make up for mistakes. Most importantly, have fun.

**What does a game day feel like?** Intense, especially the second you hit the ice. Your adrenaline sky-rockets.

**Team nick names/inside jokes?** Dennis the "Big Man" Moore, sittin' on the toilet, walkin' up racks, the honesty chair, Skee getting dropped by Jake Drew every practice. Benders, top-chedda, top-zella, bah down, top daug.

Interview with Ries McQuillan  
**Tell us about a typical practice.** We start off with about 5-10 minutes of stretching and warming up, then we usually do some drills that focus on specific skills. After that, we get into some live situations, both half court and full court to work on something that we need better. And there would always be conditioning for whichever group lost the drill.

**Describe a team bonding activity.** Pasta dinners were always very interesting. It was quite a good group of guys to be around.

**What are your pre-game routines?** We would always hang out in our locker room and joke around and listen to music in order to loosen up for the game, then our coach would give a quick speech and then we would motivate ourselves further.

**Describe the most memorable game/meet of the season?** The very last game of the year, against King Phillip. We won in a very close game. Everybody played their absolute best, and all the members of the team contributed what they needed to do in order to win.

**To seniors, what will you miss most?** To me, I will miss the pasta dinners the most. They're just a really simple but fun time to be around a good group of guys.

**What advice would you offer to underclassmen?** Always give your best effort, and don't "cheat" on any drills. It'll be over a lot sooner than you think, and you want to look back and not have any regrets.

**Team nick name/ inside jokes?** Flowers. Enough said.

As Charles Dickens put it:"It was the best of times, it was the worst of times, it was the age of wisdom, it was the age of foolishness..."

Westwood High School was just that; being with friends, having cool teachers/classes, friend drama, lack of sleep studying for tests and doing projects, waiting and wanting to leave for college as a senior.

Through all this we knew that what ever we were going through everyone else was experiencing as well, and finally being able to taste freedom, finishing high school and going to college, was all worth it!

WHS for me has been: paying mortgages & having babies with my darling clementine, Fab 5, swim team TRIPLE THREAT, daily Starbuck runs & becoming regulars, tie-dying & taco bell, lifers at Islington, taking care of my bodayy, Initiation 10, having a little bit of "beh beh", "I just got here", hanging like a pendulum, UNAGI, "again and again...", Bourne hockey game "U-ee!", KUH!, shark faces, stuttering, prom '09, & more. Graduating means leaving and going to new places, but I will hold all the good times & memories close to my heart. Keep in touch, and stay classy Westwood.

My time at Westwood High has been a memorable experience. After moving to Westwood in 8th grade, Freshmen year was a time when I finally felt fully grown into Westwood. My year as a Sophomore was highlighted with new friends, as well as harder academic challenges. My Junior and Senior Years were a time when I felt at ease with friends and high school in general. I hope to be remember by everyone as friendly and laid-back; an easy to talk to and genuine person.

The most important things that i learned from WHS weren't as much academics as the everyday lessons. Ive learned to appreciate my true friends and thats A.B, N.C, J.DR, KMcd and W.F. If it werent for them i honestly dont think i would have made it through this year. Who cares if your not "popular" or you sit in on the weekends with your friends? If you can count your true friends on one hand, then nothing else matters.

My WHS experience is a mixed bag. Some funny, some cool, and some that were just crappy. I met many close friends here, in addition to countless random people who just seem to know my name. I didn't participate in a lot of WHS activities. Honestly, I still don't know half what happens daily. I'm guessing friends, clubs, and just off-topic rants (about videogames, anime, and whatever pops to mind) are things I would most remember. There are teachers I will definitely not forget. I hope to be remembered just because I'm Tao, no other reason needed.

## Kathleen Harrington

When I entered high school, a wide-eyed young freshman, I thought "this is the first step to becoming a mature adult and ready to take on the world!" As the years progressed, I came to realize high school is not about the maturing - it's about holding onto your wide-eyed curiosity and youthful energy. Most of my best memories from high school have involved goofing around with friends, or getting excited about the little things in life, or trying something new. Although I have done my fair share of growing up, I have learned to hold onto my child-like curiosity and passion.

All the memories I've made in the past two years - at the football games and dances, all the laughs and stories - they'll always be in my heart. "I set out on a narrow way, many years ago", assuming high school would involve some studying, hockey, friends. Now those grades have gotten me into college, my team has become family, and I don't think leaving Westwood will be as easy as I expected. It's not the milestones on the journey (although prom was fun), but the inches that matter. "Because we know when we add up all those inches, that's gonna make the... difference between winning and loosing". To my family, hockey family, and friends, thank you for everything, love you all.

Will the Activia make me go? Did you really just break that  
skeleton? High school started with so many questions to be  
answered and expectations to be confirmed. But as these four  
years zipped by they only led to more questions about our  
parting futures. Will I still have my friends after another four  
years? Did Natalie just crawl under the table?  
But now these questions are safely rhetorical, if I learned  
anything in the past four years, it is that the answer is most  
likely, yes.

partner for the games in the  
basement of the castle and many  
many more. Best of luck to next  
years football team, you better  
beat Holliston. I will never forget  
the good times I had in my four  
years here at Westwood High  
School.

## Olivia Powers

My four years at Westwood have been wonderful. I have made  
so many good friends and have collected so many memories.  
Being around my friends was the best. Spring was always so  
fun. That was when spring track came around and we would be  
like one big family. I'll never forget Bio with Elizabeth and our  
BFF Tom, or drama with Shawna when we would dance to the  
same song everyday. Four years went by so fast. I still cannot  
believe it.

## Alex Prieto

I will have many good memories from Westwood High School, from my first day of school (meeting Kara Pierre-Charles) to hysterical moments with Marjorie Juste. I met many good friends (Olivia O'Leary, Sarah Deangelis). I want to thank them and everyone for always being there for me, along with Mrs. Goodloe and Mrs. Higgins for always pushing me to do better. Without you all I wouldn't be the person who am I today. I will always remember Westwood as being a place for opportunities. I hope I'm remembered with good thoughts as well.

These past four years have been quite an experience. I can't believe I'll be graduating soon! I've made amazing friends and have had experiences with them I will never forget. My best friends have been by my side all four years and I wish them well for next year when we go our separate ways! Homeroom 227 was amazing and I'm going to miss our morning talks. Senior year has been great. I've made a lot of good memories at Westwood High, but I'm definitely ready to see what college has in store for me!

## John Trakas

September 1997 to June 2010. What a journey. I will never forget the friends I made during this time and those I had as teachers. They truly have helped to shape who I am today. I think of Graduation as the end of the prologue, so that the book can begin. I am reminded of a quote by Abraham Lincoln that sums up the purpose of our school years well: "Give me six hours to chop down a tree and I will spend the first four hours sharpening the axe" We have finished sharpening, it's time to swing!

## Xander Ventola

# Alexandra Elizabeth Bartholomew

To laugh often and much; to win the respect of intelligent people and affection of children; to earn the appreciation of honest critics and endure the betrayal of false friends; to appreciate beauty, to find the best in others; to leave the world a bit better; whether by a healthy child, a garden patch or a redeemed social condition; to know even one life has breathed easier because you have lived. This is to have succeeded. -Ralph Waldo Emerson-

We are so proud of you and your successes; past, present and the ones yet to come!

Love always and forever, Your Family
